

Custom Mouthguards for Students of Hillsboro School District High Schools!

South Hillsboro Family Dentistry is excited to offer our students in the Hillsboro school district the opportunity to have custom mouthguards made for their chosen contact sports. These will be professionally made in the United States & be similar to the mouthguards worn by professional athletes.

Generally, mouthguards made in a dental office can run anywhere from \$100-\$300. At South Hillsboro Family Dentistry, we are offering to make the guards at our cost. Thus, we are offering to make the appliances for \$25 for any high school student enrolled in a Hillsboro School District high school sports programs.

In Order to Take Advantage of This Opportunity, Take the Following Steps:

1. There is a brief form that will need to be filled out.
2. Call our office at 503-747-5607 to schedule an appointment or email us at admin@southhillsborodental.com, for impressions of your upper teeth.
3. Appointments MUST be scheduled for the impressions on a Monday or Tuesday.
4. Bring the completed form to your appointment, as well as the \$25 payment.

That's it! We will take the impression from there & work our dental magic. We will then schedule a day to bring the final mouthguards to your school, have you try it in and make any minor adjustments.

Professional Mouthguards Are Superior to Over-the-Counter Guards For a Number Of Reasons

- Better stability leads to reduced risk of dislodging.
- No clenching necessary to hold the appliance in place.
- Thicker material that offers greater tooth protection & soft tissue support.
- Resistant to wear-through from clenching means more seasons of use.
- Can come in your school's colors.

The \$25 payment is due at the time of the appointment impression & is payable with cash, check or credit card.

Best of luck to all the athletes this year!

Payment of \$25 is due at the time of the impression appointment. We accept all forms of payment, including, cash, check & credit card.

South Hillsboro Family Dentistry is proud to offer you a professionally made mouthguard for your contact sport. Studies have shown that wearing a professionally made mouthguard is superior in every facet to an over-the-counter guard in terms of stability, protection of teeth & athlete comfort. While the guard will protect the athlete's teeth & other oral structures, there is no guarantee that it will eliminate the inherent risks & dangers of contact sports. It is merely another piece of protective equipment designed to help you play your best & hardest, while protecting you as much as possible.

Good Luck To All the Teams This Year!
